

18 [Instrument calibration](#) 1011

18.1 Calibration versus re-ranging 1011

18.2 Zero and span adjustments (analog instruments) 1012

18.3 Damping adjustments 1015

18.4 LRV and URV settings, digital trim (digital transmitters) 1019

18.5 An analogy for calibration versus ranging 1025

18.6 Calibration procedures 1026

18.6.1 Linear instruments 1026

18.6.2 Nonlinear instruments 1027

18.6.3 Discrete instruments 1028

18.7 Typical calibration errors 1029

18.7.1 As-found and as-left documentation 1033

18.7.2 Up-tests and Down-tests 1034

18.8 Instrument turndown 1035

18.9 NIST traceability 1036

18.10 Practical calibration standards 1039

18.10.1 Electrical standards 1041

18.10.2 Temperature standards 1043

18.10.3 Pressure standards 1049

18.10.4 Flow standards 1054

18.10.5 Analytical standards 1055
